

# Northwell Health Physician Partners Occupational & Environmental Medicine of Long Island

## About this service

Occupational & Environmental Medicine of Long Island (OEMLI) is the designated New York State Department of Health's center of excellence on Long Island for the prevention, diagnosis, treatment and research of occupational and environmental diseases. Part of Northwell Health's Department of Occupational Medicine, Epidemiology and Prevention, our doctors are board certified and nationally recognized in the field of occupational medicine with decades of combined experience. OEMLI's medical specialists possess a profound understanding of the health needs and risk factors facing Long Island workers and provide comprehensive medical care tailored to the specific needs of our patients.

"At OEMLI, we provide the highest quality care to patients on Long Island with occupational and environmental medical needs."
