

## **CWA 1108 2020 ENDORSED CANDIDATES FOR ELECTION DAY NOV. 3**

CWA 1108 is active politically on Long Island so that we may advocate on behalf of the members of 1108 to our elected representatives. We do this so we can fight for our work and jobs here in 1108. We have had great support in fighting Voice Link, passing Double Pole legislation, getting the PSC to enforce plant conditions again, and over the past 2 years, we passed Telecomm laws in New York State for the first time ever. We passed the Call Center bill into law and passed the Broadband Data collection bill to have the PSC develop an accurate map of where fiber fed high speed broadband is available, which is the first step in getting a statewide fiber build done. We must pass laws to make sure affordable High-Speed Broadband and video services are delivered over a fiber landline, not by 5G wireless. The past 8 months have truly demonstrated that the service we provide is vital for everyone working and learning at home. Please consider voting for the following candidates when you vote, as we have screened and vetted them. We have a commitment from them all to help us in our fight and a good working relationship with most of them to prove it. Most important- VOTE!
